HOP DESCRIPTIONS

CASCADE (AA 4.5%–7.5%)

Derived from a cross between Fuggle and the Russian hop Serebrianker. The aroma is of medium strength and very distinct. A pleasant, flowery and spicy, citrus-like. Good for flavor and aroma, but an acceptable bittering hop. Very likely the most popular hop in North America.

ZEUS (AA 11%–15%)

Zeus is very similar to Columbus and Tomahawk and the three are often referred to as CTZ. A dual purpose, high alpha acid varietal prized for its bittering qualities and aromatic impact. Herbal notes with pine resin and black currant. Easy to grow and high-yielding.
